I want Christmas Eve to be a legislated public holiday because:

Retail assistants work SO hard at this time of year, when most are celebrating with an annual holiday, we are usually dropping from exhaustion by the time we get home.

Christmas Eve is the beginning of the celebrations, working hours & late shifts (to prepare for boxing day) have been slowly cutting into that time. Retail Staff should not be denied time with friends and family unless suitably compensated.

Employers need to be mindful of people's lives coming before business. I understand that is not practical for the majority of the year, but at least give something to the staff on special events. Happy Staff are good Staff!
Name

I want Christmas Eve to be a legislated a public holiday because:

i want this time with family at christmas so we enjoy this time as a family too many times lost while i been busy with work all year .

regards

I want Christmas Eve to be a legislated a public holiday because:

Because stores are opened for conveniences of customers to do last minute shopping but that is taking away from those that work, when this time could/should be spent with loved ones. So making this a public holiday will help compensate for workers time spent away from celebrating with loved ones.

I want Christmas Eve to be a legislated a public holiday because:

We miss on a special time with our families when we have to work at this time. I work in online so they cancel my shift, which is not on because it is my contract, and tell me I have to either take leave or no pay. This is because there are no deliveries on a public holiday so I miss out in 2 days pay then and the management think that is all right. It saves on their wages bill but it greatly affects my earning ability as I have only this income.

I want Christmas Eve to be a legislated a public holiday because:

Everyone deserves to spend time with their family on Christmas Eve and Christmas Day, if it's good enough for the politicians to have this time off, and they are the ones making the decision if others are entitled to be paid compensation for sacrificing their family time, then this time should be compensated. Retail hours have been extended unnecessarily, so if you need to work you should be compensated. It will only truly be a 24 hour seven day a week society when I am able to go to the bank Sunday night, or renew my license in person on Christmas Eve, when that happens penalty rates may be cut.

I want Christmas Eve to be a legislated a public holiday because:

As a visual merchandiser, I work past 6pm on Christmas Eve every year while my friends and family enjoy a relaxing and bonding evening in each others company. I work harder and longer at this time of year as it is... add to that the stress of trying to fit in present buying and food buying for the day. There is next to no time for food prep to contribute to the day and I can never dream of sharing the responsibility and work of hosting the day. Instead my family have to work around me and accommodate my schedule which leaves me feeling guilty and ashamed. I wake up feeling tired and groggy on Christmas Day from working hard and late and struggle to stay joyous and celebrate the day like I and my family wish I could. Consequently I never look forward to Christmas.

I want Christmas Eve to be a legislated a public holiday because:

Christmas Eve is the time for families to start preparing for Christmas Day, it’s an important time for young families getting presents ready for the next morning and spending time with their children building up the excitement of Santa coming tonight. Many Australian families with a European background or relatives celebrate Christmas on Christmas Eve so members of the family miss out if they have to work that day.
